Note:

Each number is how many personal holidays (leave days) the employee takes in that week-part.
Weeks that cross a month boundary are SPLIT into two columns (shaded orange) so each part sits in a single month:
• Week 5 → Week 5 (Apr): 27–30 Apr and Week 5 (May): 01–03 May
• Week 14 → Week 14 (Jun): 29–30 Jun and Week 14 (Jul): 01–05 Jul
The bus, pickup point and drop point are the SAME across both halves of a split week (the weekly assignment doesn't change mid-week); only the day counts differ.
A part's holidays range from 0 up to its working days (grey row). Sundays are the weekly off and are never counted.
Commuting days in a part = its working days – its holidays. Month totals are now exact, so monthly salary can be computed.
