Remark/Matching Criteria	

Remark/Matching Criteria

original SGST	original CESS
------------------	------------------

The diagram illustrates a cross-section of a material with multiple layers. The top layer is grey. Below it is a thick light green layer. A thin red layer is positioned within the light green section. The bottom part of the diagram consists of several more light green layers of varying thicknesses, separated by thin white lines. The overall structure suggests a composite material or a geological cross-section.
