Notes

- Average AIT = mean of the totals (Paper 1 + Paper 2) of AIT-1 through AIT-5; each AIT total is out of 360.
- A student first qualifies for a band (a1 / a2 / a3 / a4) based on their average AIT.
- Their coach is then determined by combining their band with their list (per Section 2).
- Example: a student in List 2 with average AIT = 230 falls in band a2 → admitted to Coach A.
- Example: a student in List 4 with average AIT = 230 falls in band a2 → admitted to Coach C.
- Improvement is applied to the student's average AIT: Improved Average = Avg AIT × (1 + Improvement %).
