EMP1080	7	7	12	6
EMP1081	4	7	2	5

NOTE — HOW THE PICKUP WORKS

PICKUP POINT — LATE MINUTES PER EMPLOYEE PER DAY (0–12 min)

The bus waits at the pickup point for every one of its employees to arrive. It departs only once all of them have reached and boarded — so the bus leaves when the last employee has arrived.

The minutes above are how late each employee is in reaching that pickup point each day (0 = on time, 12 = the most late).

DROPPING POINT — LATE MINUTES PER EMPLOYEE PER DAY (0–12 min)

Employee ID	d1	d2	d3	d4	d5
EMP1001	8	7	7	1	8
EMP1002	12	8	12	4	1
EMP1003	3	3	0	1	7
EMP1004	10	5	6	8	12
EMP1005	10	2	0	5	2
EMP1006	5	8	10	9	12
EMP1007	8	3	1	9	11
EMP1008	4	8	12	9	11
EMP1009	3	9	4	9	4

EMP1078	5	6	8	8	5
EMP1079	5	11	10	7	6
EMP1080	5	2	3	12	7
EMP1081	3	11	5	12	12

NOTE — HOW THE DROP WORKS

After the drop, this is how late the employee is in getting from the dropping point to the office each day (0 = on time, 12 = the most late).

HOW TOTAL LATE IS CALCULATED

Total late for an employee in a week = late at their PICKUP point + late at their DROPPING point + bus-queue penalty (pickup) + bus-queue penalty (drop).

BUS-QUEUE PENALTY: when several buses share the same point, they arrive one after another. The 1st bus to arrive adds no extra time. Each later bus in the queue adds 5 minutes per position:

1st bus in queue → +0 min 2nd bus in queue → +5 min 3rd bus in queue → +10 min

This penalty is applied separately at the pickup point and at the dropping point, based on the bus's arrival position there that week (the ^{1 2 3} markers in the points schedule).
