

Initial Funding — Rules

These rules decide how much initial funding each project receives, based on its total estimated cost. Total cost and starting cost are taken from the project cost model. All figures are in cost units.

The rules

Any project whose total cost is greater than 750 will not be funded. A project whose total cost is exactly 750 will be funded.

Projects with a total cost of 700 or less will be provided their starting cost plus one quarter of running cost.

Projects with a total cost greater than 700 and up to 750 will be provided their starting cost plus two quarters of running cost.

Funding bands at a glance

Total cost band	Funding provided	Running quarters
≤ 700	Starting cost + 1 quarter running cost	1
701 – 750	Starting cost + 2 quarters running cost	2
> 750	Not funded	—

Funded amount = starting cost + (running cost per quarter × quarters funded). T
